The High Style recliner mechanism is a leading component for chairs with a high-leg application.

Attributes include:

- Available sizes for small, medium, and large chairs.
- Opens smoothly with a push-on-the-arm mechanism and closes easily with simple leg pressure.
- Rail mounting allows for the ultimate in high-leg design.
- Counter balanced recline for ease of operation and infinite Full-Recline Positions.
- Compact chassis is designed to operate in a wide range of chair sizes.
- KD back brackets allow easy back removal for handling.

Key Features & Benefits

- A balanced recliner mechanism with optimum reclining performance for high-leg chairs.
- Improved linkage design keeps Ottoman closed tightly.
- Excellent footrest pitch and support.
- Safety Ottoman brackets meet U.S. C.P.S.C. voluntary safety standards with an articulated, elevated bracket optional.
- Back-stabilizing bracket stabilizes back in Closed position.
- Back-tension adjustment allows back pressure to be adjusted to fit the individual's desired comfort.
- Engineered bushings at all pivot points for smooth operation and Long Life™.
- Positive stops maintain a tight back and Ottoman in the Closed, TV, and Full-Recline positions.
